FINDING YOUR RING SIZE

Australia / UK Edition

MEASURING AN EXISTING RING

- Print this page out on A4 paper with your printer's page scaling set to 100%.
- Pick any of your existing rings that fit the desired finger.
- Simply place the ring on top of each circle until you find a perfect match. The match should perfectly fit the inside of the ring. This is the ring's inside diameter.

- If the ring is in between sizes, go with the bigger size for a better fit. Also, it's easier to resize a ring to be smaller than it is to make it larger.

PLEASE NOTE

- Use the lines on the right to check that this sheet has printed correctly to scale. Either measure the 5cm scale or line up a credit card as shown on the line.
- Also, pay attention to the style of the ring - wider bands fit more tightly than finer bands and people size up for them.
